

**FIG. 1**

This is a high-contrast, black and white image. The central portion of the image is filled with a dense, granular texture, resembling a wall of small, light-colored particles or a large crowd of people seen from a distance. This textured area is flanked by large, solid black regions on the left and right. On the right side, there is a bright, irregular white shape that appears to be a reflection or a highlight. The overall image has a grainy, high-contrast quality, similar to a photocopy or a low-quality scan of a photograph.

**FIG. 2**

This is a high-contrast, black and white image, possibly a photocopy or a heavily processed photograph. It depicts a dense, textured surface, which could be a wall with a rough finish or a large crowd of people. The image is characterized by a complex pattern of light and dark areas, with a prominent dark, irregular shape in the upper right corner. The overall appearance is grainy and abstract, with no discernible text or figures.

**FIG. 3**
